Subject: Students who Accessed the ATC or MSTRC 5 or More Times – 2010F, 2011W, 2011S

Highlights

Students who accessed tutoring services 5 or more times had higher success rates than students who did not access tutoring 5 or more times, not controlling for course taken.

Course success rates of students who accessed tutoring services by number of visits are highest for students who accessed tutoring services 26-35 times (86%).

Most students access tutoring services 5-15 times (49%) per quarter.

The majority of students accessing tutoring services are enrolled full-time (70%) while 30% are enrolled less than 12 units per quarter.

Students with the lowest course success rates in courses identified in this report are Black students at 66% and Filipino and Latino students at 67%, both groups are below the average success rate of non-tutored students (68%).

Findings

Demographics

- Asian students access tutoring services at the highest rate of any ethnic group, making up 48% of the tutored population. This is followed by White students who make up 15% of the population, 10% are Latino students, 6% are Multi-Ethnic, 5% Black, and 3% are Filipino students.
- 74%, of students accessing tutoring services are U.S. and California residents, 21% are international students.
- 56% of students accessing tutoring services have received only a high school diploma while 17% have a foreign secondary degree, 6% have received a bachelor's degree and 15% are unrecorded.

Success Rates

- Students who accessed tutoring services 5 or more times had higher success rates than students who did not access tutoring 5 or more times. Tutored students exhibited success rates at 80% while non tutored students exhibited success rates at 68%, not controlling for course taken.
- Course success rates of students who accessed tutoring services by ethnicity is highest for Asian students at 85% followed by White students at 81%. Students with the lowest course success rates are Black students at 66% and Filipino and Latino students at 67%, both groups are below the average success rate of non-tutored students (68%).

Number of Visits

- The distribution of students who accessed tutoring services by the number of visits in a quarter are largely students visiting the centers between 5 and 15 times at 49% followed by over 35 visits at 32%. 14% of students visited the centers between 16 and 25 times and 5% visited 26-35 times.

- Course success rates of students who accessed tutoring services by number of visits are highest for students who accessed tutoring services 26-35 times (86%), about 2-3 times per week per quarter. Students who accessed tutoring services 16-25 times and over 35 times per quarter had success rates of 80%. Students who accessed tutoring services 5-15 times per quarter, or less than once a week, had success rates of 78%.

Methodology

A file of students who accessed the Students Success Center (SCC), at either the Applied Technology Center (ATC) or the Math, Science, Technology Resource Center (MSTRC) 5 or more times per quarter (fall, winter, spring of 2010-11) was provided to the Research Office. The file contained 2,582 unduplicated students. The file of students who accessed the SCC was joined to the enrollment table to determine course success rates in courses which tutoring services are offered at the SCC.

Courses tracked were identified by individuals that work in the SCC, the courses include:

ACCT1A-1B
 BIOL6A
 CHEM1A-1B
 ECON1-2
 ESL5, ESL200-274
 EWRT1A, EWRT200-274
 FREN1-2
 GERM1-2
 JAPN1-2
 MAND1-2
 MATH1A-1C, MATH10-12, MATH41, MATH43, MATH52, MATH 114, MATH 210-12
 PHYS4A-4B
 POLI1-2
 READ200-211
 SPAN1-2

This resulted in 522 students in fall, 839 students in the winter and 927 students in the spring for a total of 2,288 students over the three terms. Success rates were calculated in each identified course. Success is defined as A, B, C, P; non success is D, F, NP, I; and withdraw is W. Success rates of students who accessed tutoring services 5 or more times were compared to students in the same course in the same term that did not access tutoring services 5 or more times.

The attached files include:

- Demographical information of students accessing tutoring services: ethnicity, residency status, enrollment status, education level and educational goal
- Course success rates of tutored students compared to all other students by term
- Course success rates of tutored students by ethnicity
- Distribution of students accessing tutoring services by number of visits in each term
- Course success rates of students accessing tutoring services by number of visits and term
- Course success rates by course and term of students accessing tutoring services compared to all other students
- Course success rates of students accessing tutoring services by number of visits, 5-15 times
- Course success rates of students accessing tutoring services by number of visits
